

## HOW TO DOWNLOAD SOURCE CODE AND 1080p VIDEOS

1. The Source-Code of all the examples is attached with Lecture – 5: "*Creating Threads Using the Threads-API – First Way*". Just click on [📄 Efficient Multithreading](#) to download it!

The screenshot shows a course interface with the following elements:

- Navigation Bar:** Overview, Course Content (active), Q&A, Bookmarks, Announcements, Options.
- Search Bar:** A search input field with a magnifying glass icon.
- Section List:**
  - Section: 1** (4 / 4): INTRODUCTION
  - Section: 2** (7 / 10): CREATING AND RUNNING THE THREADS
    - 5. Creating Threads Using the Threads-API - First Way** (10:25, completed)
      - [📄 04 Using Threads API First Way](#)
      - [📄 Efficient Multithreading](#) (highlighted with a red box)
    - 6. Creating Threads Using the Threads-API - Second Way** (4:27, completed)
      - [📄 05 Using Threads API Second Way](#)
    - 7. Creating Threads Using the Threads-API - Third Way** (4:32, not completed)

2. HD Video of each lecture is also attached with the lecture itself as highlighted below. Clicking on the video link will start the download.
